

Numeracy

Skill: Chance and probability

You and your family go an overnight summer camping trip. Use the terms: **possible, impossible, certain, uncertain** to respond to the following scenarios:

What are the chances it will rain during the camping trip? -----

What are the chances you will get caught in a snowstorm? -----

What are the chances someone will get smoke in their eyes during a campfire sing-along? -----

What are the chances you will see a wild animal during a camping trip? -----

What are the chances you will see a Big Foot? -----

What are the chances someone will get bitten by an insect? -----

What are the chances someone will catch a fish? -----

What are the chances you will tell some ghost stories at some point? -----

What are the chances you will eat Smores or roasted marshmallows? -----

What are the chances you will watch television? -----

What are the chances that everyone will have a great time? -----
