

Art for Week 10

MAA Grades 6-8

Well, it's the last week for on-line learning opportunities! This week, I want to share with you some wicked art hacks. The first part of the video involves using paint (the cherry blossoms ask you to use ink, but you can get the same effect with watered-down black paint). You'll notice that q-tips bound together with elastic rears its head again (it's a very useful art hack!), and I absolutely LOVE the lupins (long, tall flowers, in case you didn't know!); The second part of the video shows some very cool hacks using only markers and your hand as your model to create animals and other drawings (I know you all have hands, so no excuses there!!) 🙄

Keep on creating, and have a wonderful summer!

-Ms Thorne
